

How to care for your Ultra Matte Surfaces

Keeping up with the matte trend, Caesarstone has achieved beautiful, weathered surfaces that are silky to the touch but **will require a bit more daily maintenance...**

Are you considering an ultra matte or concrete-finish surface?

Like any matte surface, they will require **more daily maintenance**, but are just as durable as a polished surface. Our Caesarstone Spray and Cream Cleaner works wonders for everyday cleaning and will remove any stubborn marks.

5810 Black Tempal

Our industrial-inspired colours have an incredible unpolished-finish, designed to reflect the authentic textures of manufacturing, these designs have subtle variations that capture real depth and movement. **Never use harsh chemicals or acetone** on your matte surfaces.

Each slab is unique, just like your personal style. With natural textures and interesting movement, always view and select your Caesarstone slab in person.
