Metropolitan Collection

Caesarstone has taken on the new trend of raw industrial design and pushed it further with the innovative Metropolitan Collection. Rough, tough, and unpolished, these intriguing materials are embedded with depth, movement, and visual impact. Please note: All our Metropolitan surfaces have a matt, non-glossy finish to capture the essence of concrete. Concrete-inspired surfaces require more daily maintenance, but they are just as durable and non-porous as our polished surfaces.

Low-maintenance living

Virtually maintenance-free, Caesarstone's hard, non-porous surfaces require no sealing to renew its luster and are simple to clean. In most cases, soap and water or a mild detergent is enough to keep your Caesarstone surfaces looking like new. If necessary, use a non-abrasive soft soap along with a non-scratch or delicate scrub pad. Afterwards, thoroughly rinse with clean water to remove residue.

Please note: concrete and matte surfaces require more daily maintenance, but they are just as durable and non-porous as our polished surfaces.

Quality & service

As passionate as we are about design, we are equally committed to providing the best quality and service. Caesarstone has received worldwide recognition for our commitment to quality, safety and environmental standards. Each and every one of our surfaces is carefully inspected to ensure it meets the highest level of international quality standards.
