

Rough, Tough and Unpolished

By innovating cutting-edge technology exclusive to Caesarstone, weathered patinas have been achieved in quartz for the very first time - a breakthrough that one can literally feel and experience.

Forming part of our Metropolitan Collection, our industrial-inspired colours have an incredible concrete-finish and organic movement. Designed to reflect the authentic textures of manufacturing, such as oxidized steel, poured plaster and raw concrete, these designs have subtle variations that capture real depth and movement, **making each slab unique.**

*** These intriguing materials showcase subtle variations between slabs, so we recommend viewing full slabs at your nearest supplier, prior to commencing with fabrication.**

These concrete-finish surfaces may require a little more daily maintenance, but are just as durable and non-porous as a polished surface. Our Caesarstone Spray Cleaner works wonder for everyday cleaning and will remove any stubborn marks.

For more design ideas and any queries visit our website, caesarstone.co.za or contact us on **083 608 5810.**

*Shade and graining of actual product may vary from printed sample.
