Caesarstone Bathrooms

The undisputed premium kitchen countertop of choice, Caesarstone brings you fresh ideas and new levels of luxury, timeless elegance and functionality to the bathroom.

Caesarstone surfaces are not only perfect for bathroom wall cladding, but also vanities, bath surrounds, inset shelving, shower recesses, floor panels* and window sills. Caesarstone's surfaces offer endless design possibilities to create your dream bathroom.

Our surfaces consist of up to 93% quartz, which is stronger than natural stone and one of nature's hardest minerals. They are non-porous, durable, resistant to stains, scratches, common household chemicals, mould and mildew making them ideal for bathrooms, wet rooms, laundries and spas.

Our large panel size options allow for fewer joins, resulting in minimal maintenance to keep your surfaces looking like new for years to come. All Caesarstone surfaces come with a lifetime warranty. Visit our website at caesarstone.co.za for more information regarding the lifetime warranty.

Caesarstone Collections

Ultimo Collection

Caesarstone has curated a range of colours and designs in 13mm thickness for bathroom wall cladding.

Metropolitan Collection

Weathered patinas have been introduced to the quartz surface industry, for the first time. Each colour in the collection has been designed to reflect the authentic textures, such as oxidized steel, poured plaster and raw concrete. All of our Metropolitan surfaces have a matt, non-glossy finish to capture the essence of concrete.

Supernatural Collection

Our Supernatural collection of marble-inspired designs offer the cool, tactile qualities of natural stone with the superior properties of Caesarstone quartz surfaces.

Classico Collection

In addition, the entire range of surfaces in the Classico Collection is available in 20mm thickness, which can be used for countertops, vanities, flooring, bath hobs and shelving.
